

On behalf of the KCRNC Board of Directors

## Passing of Dr. Anil Kapoor

It is with great sadness and a heavy heart that we announce the passing of Kidney Cancer Research Network of Canada Chair, Dr. Anil Kapoor.

Dr. Kapoor passed away in the early hours of February 28 after a short and courageous battle with an acute illness. His loss is deeply felt by not only our Canadian urologic and genitourinary cancer community but globally as well.

His life and career were dedicated to advancing care in kidney cancer as well as other genitourinary malignancies. He was the chair of KCRNC since 2016 and was an integral part of its ongoing success.

Dr. Kapoor was deeply committed to pursuing new knowledge, mentoring new trainees, helping his patients and making everyone in the room laugh. His efforts in research and philanthropy will advance care for patients living with urologic conditions and cancers for decades to come.

He will be remembered as a cancer surgeon, mentor, researcher, educator, respected colleague, and friend.
